SOURCE

- 1. The MURSEBURG (A 52/D 91) airfield was not occupied by aircraft and construction work was not being done. A sodded strip, about 100 x 1,300 feet, in the center of the field, east of the asphalt runway, was plowed.
- 2. The field was guarded by German People's Police, quartered in the cantonment buildings on the northeast edge of the field. The target ranges in the west section were repaired. An obsolescent armored train of German make was still standing on the spur track.
- 5. Soviet troops wearing red-bordered, black epaulets were quartered in the airfield kasernes. A small air force detail was presumably also quartered there as soldiers wearing black-bordered, blue epaulets were repeatedly observed. Air force motor vehicles were not seen.

25X1A

Comment:

a. The occupation of the field has apparently not changed since October 1949. No air unit is stationed there. An army unit is assumed to be quartered in the airfield karsernes.

b. The information on the plowing of a 100 x 1,300-foot area on the landing field is received for the first time.

This document is horeby regraded to CONFIDEN AND reprovidence with the letter of the Obtober 1073 from the Director of Control Intelligence to the Archivist of the United States.

Next Rower Date: 2008
